**JACOB W. GRUBB,**  
Jeweler, Cor. Twelfth and Market Streets.

### Yesterday's Arrests.

Harry Malcom was arrested by Officer Wilkie yesterday as being one of the parties who assaulted Hackdriver Shorts on Sunday morning. Lieutenant Gaus took Jim Callahan up to the station house for drunkenness, and Officer Sealley sent in a Martin's Ferry drunk at 1 o'clock in the morning.

### The Muhleman Benefit.

There are some good seats left in the gallery for the concert at the Opera House this evening for the benefit of Eugene Muhleman, the injured fireman. Enough tickets have been sold, however, to pack the house upstairs and down, and then it is doubtful if all the holders of tickets who desire to attend can get in. Tickets are still selling.

The final rehearsal of the performers last night went off with decided success, and the performance will be all that could be desired.

### After Military Idols.

A progressive euchre party will be given by the Wheeling Cyclers at their hall on Tuesday, March 22, instead of March 23, as at first intended.

The cyclers have become stirred up by the war talk lately prevalent, and with a view to offering their services to the government, are making arrangements for a fifty-six mile run to Brownsville, Pa. The run will be made by six cyclers, and six stations, about ten miles apart, will be established, at each of which a rider and his bicycle will be stationed. The one at Wheeling will start at a given time and ride to the next station, where a fresh rider will relieve him, who is to be relieved by the one at the next station, and so on until Brownsville is reached. The object is to see in how short a time the run can be made.

### STRUCK ON HIS HEAD.

A South Side Boy Shoved off a Wall by a Playmate.

Yesterday at noon, as Willie Turk, a nine-year-old boy who is a pupil of the Sixth ward school, was on his way home, he walked out on the abutment of the bridge over the Terminal railway at Twenty-ninth street. Another boy gave him a shove which sent him off, and he fell about twenty-five feet to the stony track below. His head was terribly cut, there being three especially large and ugly gashes in it. He was removed in an unconscious condition to his home on McColloch street, and Dr. John R. Pipes was summoned. He soon had the head revived, and sewed up his wounds, but the head will be sore for a good while.

### O'NEAL OUT ON BAIL.

His Hearing Postponed till next Thursday Afternoon and he gives Bond.

Yesterday "Padgo" O'Neal was arraigned before Squire Phillips for the alleged larceny of \$35 from Mrs. Etta Ditty's house Sunday morning. His attorney, Col. W. W. Arnett, was not present, and for this reason his application to have his case postponed till Thursday, March 17, was granted. O'Neal gave bond, his father being his surety, in the sum of \$1,000, and was released.

It appears that the evidence against the accused is even stronger than was printed yesterday. Mrs. Ditty says she was awakened and found him in the room, and that she fully recognized him, and Lieut. Gaus saw him leave the house at about the hour the robbery is said to have happened, the lieutenant being then on his way home from the police office.

### A FIRE DEPARTMENT CHANGE.

A new Engineer Appointed at the Niagara.

Mr. Meglich Betters Himself.  
Jacob Meglich, for four years and a half engineer at the Niagara engine house, has resigned his position to accept the post of engineer at the city electric plant. Ed O'Malley, now at the Belmont mill, has been appointed to succeed him.

Meglich has been one of the best men in the fire department under two administrations, and Chief Healy and all connected with the department are exceedingly sorry to lose him. His new position has many advantages, however, and his friends are glad to see his advancement.

Mr. O'Malley, who succeeds him in the fire department, comes as highly recommended as a man could be. Railroad and mill officials all testify in the warmest way to his thorough qualifications and his fitness in all other respects. He will doubtless make a good man for the position, and the city is to be congratulated on securing him.

### Miles' Nerve and Liver Pills.

Act on a new principle—regulating the liver, stomach and bowels through the nerves. A new discovery. Dr. Miles' Pills speedily cure biliousness, bad taste, torpid liver, piles, constipation. Unequalled for men, women and children. Smallest, mildest, surest! Fifty doses, 25c. Samples free, at The Logan Drug Co.'s.

CALL and see 2,000 samples of goods for Gents' Spring Suits at J. W. Ferrell's, agent for Wannmaker & Brown, corner Main and Twentieth streets.

GREAT BARGAINS in fine Shoes at L. V. BLOND'S.

### BISHOP THOBURN'S LECTURE.

He will Talk on "The Future of India" here this Evening.

Bishop J. M. Thoburn, of Calcutta, India, will arrive in the city this afternoon, and this evening will lecture at the Fourth street M. E. church on "The Future of India." There is no more attractive speaker in the American pulpit than Bishop Thoburn. He was at Pittsburgh yesterday. Last evening's Chronicle-Telegram has the following:

Bishop Thoburn, of the M. E. church, whose bishopric is in India, held an informal reception in the study of the Smithfield M. E. church this morning.

Bishop Thoburn went to India from this conference 32 years ago, and has many friends. He was healthy and in an easy frame of mind. The bishop will leave here for Wheeling to-morrow afternoon. The object of the bishop's visit to the United States is to raise enough money to enable him to continue his work in India. This he calculates will take about \$30,000, of which he has raised about \$3,000, with \$2,000 more promised. The object of this fund is to equip native Indian preachers. These can be obtained for about \$50 per year, and the work they do among their own people has been marvelous. The bishop has already prepared over 1,000 native preachers. This morning when asked to tell something of his work he said:

"Stay and hear my talk. I could not give you a better talk." His address was to the M. E. Ministers' Association, but there were many others present. The bishop said:

"The last time I attended a meeting of the M. E. ministers of this district was thirty-three years ago. Nearly every great city in India now has an M. E. Church. We have gained a foothold. That means we have to preach the gospel there in thirteen languages. That means a great deal of work. We have about 325,000,000 people within the borders where we are now established. We have three great conferences in India. It would take all Europe and part of Africa to make as large a field as we hope to occupy. The great present movement really began before I got to India, but the giving this section a home bishop was the great start in the wonderful work now going on. I believe we should have resident bishop in Central America, in Africa, in Europe and in China and Japan, and I believe here in the United States each bishop should be given his bailiwick and made responsible for the work.

"The first year I was in India as bishop a great work, begun before I arrived, was done. You will understand how difficult our work is when I tell you there are over 1,000 castes in India, each avoiding and disliking the other, and each avoiding the doing of anything the others did. There about 50,000,000 of the low caste. We found there was nothing among these low castes to prevent them from accepting the teachings we offered them.

"We began to educate the natives and made preachers of them. The first year we had made 7,300 converts, or over 600 per month. When you can show Christians the heathens are throwing away their idols they will help with money. In December, 1891, we received 500 converts every week, and during the year there were 19,000 converts. That many since the first of the year had thrown away their idols and become converts in the M. E. church. This great revival is still going on, and in the past twelve months we have baptized more people in India than any other church. One of the greatest changes we are working in India is that of breaking down caste and all nonsensical prejudices. We are lifting up the lower caste and making equals of all who accept the religion we offer. By this we are helping them not only morally but socially."

The bishop gave many interesting incidents of his work in India, the objections he had to fight, and for an hour his hearers listened to a most interesting talk on India.

Continuing the bishop said: "One of the hardest things to teach them is to observe the Sabbath day as we have here. The people are so mixed up with all kinds of people for whom they work that it is well nigh impossible to insist on this. All our meetings are held out doors, and I want to say two-thirds of the people of the world will be converted in the open air. We have more Sunday school children in India than all the other missions in that country. In the North India conference 7,000 children were added to the Sunday schools."

"In some of the schools we have no books, pens, slates or pencils, and the teacher sprinkles white sand on the ground and makes letters and figures in the sand. For the purpose of securing books and the necessary things for our schools we need money. I have appointed over 1,000 men native preachers, and 500 women, and we need more. We need money. I do not ask for money, but I will not refuse it. With \$1,000 a year I can educate, clothe, dress and keep forty children. In India a man can keep his wife and family on \$25 per year. Why, a tramp in this country would be considered a swell in India. He would be a great man there. For \$50 a year we can get a good man, and for \$100 a first class man, for a native preacher. I want to educate 1,000 children this year. I want to send out 200 native preachers this year, and I want to put 100 young men into some theological seminary. I can do this for \$15,000. If any of you want to help me I shall be thankful."

### An Important Difference.

To make it apparent to thousands, who think themselves ill, that they are not affected with any disease, but that the system simply needs cleansing, is to bring comfort home to their hearts, as a costive condition is easily cured by using Syrup of Figs. Manufactured by the California Fig Syrup Co. NEW
